

Fiberglass fishtape LYVIAFIL

CODE: 3039

The fiberglass-core, polypropylene-coated fishtapes make it possible to thread conductors into rigid or flexible pipes even where there are constrictions, very tight bends, or cable-constricted conduits.

- complete with flexible steel starting spinner and eye terminal
- very high flexibility of introduction into pipes Ø 16-50 mm
- low ease of bending
- with M5 brass terminals
- no electrical conductivity
- great pulling power
- high flexibility

Features

Technical data

Article	Length
3039.25	25 m circa
3039.20	20 m circa
3039.15	15 m circa
3039.10	10 m circa
